

Physics

Kumar

Biographical Sketch:

Dr. Akshaya Kumar received his Ph. D. degree in Physics with specialization in one and two photon spectroscopy of rare earth ions doped in glasses from Banaras Hindu University India. His current research focuses on various applications of laser induced breakdown

Research Fields:

- x Laser Induced Breakdown Spectroscopy
- x Laser Induced Fluorescence Spectroscopy
- x Multi-photon Spectroscopy

Collaborations:

- x William R. Heffner
International Materials Institute
Lehigh University, PA
- x P. C. Sharma
Tuskegee University
- x Jagdish P. Singh
Institute of Clean Energy
Technology, Mississippi State U.
Starkville, MS
